

**Job Title:** Full-stack, back-end focus

**Job Type:** Full-Time

**Location:** Somerville, MA or New York, NY

**Apply:** Send resume to [jobs@coienergyservices.com](mailto:jobs@coienergyservices.com)

### **The Role:**

Want to work at a fun, fast-growing start-up that is tackling one of the biggest challenges of our lifetime?

We are looking for a developer whose primary responsibility will be to help design and develop new features, as well as maintain the existing platform. The role will serve as technical lead for the back-end components of our solution.

### **What You Will Be Doing:**

- Collaborate with cross functional teams
- Be a technical contributor on architecture and design of new features
- Be the lead code writer on back-end developments
- Serve as a technical reference
- Contribute to documenting new features
- Contribute to routine Ops and maintenance tasks
- Help train and support new additions to the team (junior developers, QA, )

### **Who You Are:**

- Minimum 3 years of experience as developer
- Experience working on technical and architecture design
- Experience designing and developing software using:
  - JAVA EE
  - PHP (Laravel) or NodeJS /Python
  - Bash scripting
- Self-motivated and determined professional driven to succeed
- Experience working in a startup
- You have experience writing Software used by enterprise companies
- You've worked with major cloud providers like AWS, Google Cloud, Azure
- You're a natural problem-solver and willing to take initiative

### **What We Provide:**

- Fun learning environment with incredible growth opportunities
- Access to Executive Leadership Team
- Attractive benefits package with an array of healthcare benefits
- Participation in Employee Stock Option Plan
- Opportunity to be a part of one of the fastest growing cleantech companies!
