

Job Title: Full-stack, back-end focus

Job Type: Full-Time

Location: Somerville, MA; Tampa, FL or New York, NY

Apply: Send resume to jobs@coienergyservices.com

The Role:

Want to work at a fun, fast-growing start-up that is tackling one of the biggest challenges of our lifetime?

We are looking for a TL Full-stack developer whose primary responsibility will be to help design and develop new features, as well as maintain the existing platform. The role will serve as technical lead for the development of the platform.

What You Will Be Doing:

- Collaborate with cross functional teams
- Be the lead technical contributor on architecture and design of new features
- Be the lead code writer on back-end developments
- Serve as a technical reference
- Contribute to documenting new features
- Contribute to routine Ops and maintenance tasks
- Help train and support new additions to the team (junior developers, QA,)

Who You Are:

- Minimum 3 years of experience as a full-stack developer
- Experience working on technical and architecture design
- Experience designing and developing software using:
 - JAVA EE
 - PHP (Laravel) or NodeJS /Python
 - Bash scripting
- Self-motivated and determined professional driven to succeed
- Experience working in a startup
- You have experience writing Software used by enterprise companies
- You're proficient with AWS and Google Cloud, Azure
- You're a natural problem-solver and willing to take initiative
- You enjoy talking to clients and are good distilling technical information for a variety of roles within a business

What We Provide:

- Fun learning environment with incredible growth opportunities
- Attractive benefits package with an array of healthcare benefits
- Participation in Employee Stock Option Plan
- Opportunity to be a part of one of the fastest growing cleantech companies!
