

Renewable Energies, Inc.

Sustainable solutions for the future

Job Posting: Internship

Company: Renewable Energies, Inc.

Company Information: REI is a C-Corp in the business of generating multiple kinds of energies using pollutants as a resource. We pride in eliminating pollution and reducing greenhouse gases and carbon footprint.

REI is a startup with offices in Memphis, TN and Houston, TX. Our international offices are in Zimbabwe and India. We are soon expanding to Kenya and other countries, yet are in the process of securing funding.

Job Description: Seeking a candidate who is willing to be an unpaid intern and help in multiple renewable energy projects. Being a startup the options to learn multiple things in a small company thrive. Your willingness for hard and smart work will ascertain a job when funding is in place.
