

## General Interest, Full-Time

### Overview:

Are you looking to make a difference in the world? Boston Meats is revolutionizing the food industry by solving a major global challenge: how to make meat production ethical and sustainable. Going beyond the existing plant-based burgers, we are developing whole cuts of cultured meat – a process where meat is grown without the animal – using technology developed at Harvard University and the Wyss Institute. This will transform how the world consumes meat and protein.

Even if you do not see a role that fits you, let us know how you can help enable the vision of Boston Meats.
