

Position: Internship for Project Development, Construction & Management

Company: Sky H2O, Inc

Website: www.skyh2o.com

Location: Greentown Labs, Houston TX

Time: 2023

Commitment: 10 - 20 hours per week

Reports to: Project Manager for SkyH2O STATIONS Texas

Compensation: TBD + Performance Bonus

Interested and qualified candidates send CV to: Alex@skyh2o.com or Awelczeck@gmail.com

Qualified candidates are graduate students or recent graduates with know-how in and a passion for the Environment, Sustainability, Clean Technologies, Green Infrastructure and Renewables including Water. Candidate must be a self-starter, be comfortable working independently, and have strong communication skills in writing, speaking and making presentations.

SkyH2O is creating a new Infrastructure Project Investment Class by innovating, advancing and scaling industrial Atmospheric Water Generation ("AWG") technology, products, systems, and projects. SkyH2O effectively combines up-stream (IP/technology + products) with down-stream (projects + financing) to most effectively provide communities, and large commercial and industrial water users with fresh potable water. AWG is a disruptive solution and a new water resource, and in most locations is more effective than alternative water systems including desalination or reverse osmosis ("RO") and is more environmentally friendly.

SkyH2O STATIONS are rolling-out Nationwide, starting in the Houston MSA. SkyH2O STATIONS supply Renewable Water that is NetZero Water, and provide the ultimate in water sustainability, security and resiliency, and always in the most environmentally responsible way.
