

**N<sup>TH</sup> CYCLE**

## **Financial Analysis Manager**

### **WHO WE ARE.**

The demand for critical minerals to power the energy transition is growing exponentially. Yet, we know mining deeper and broader, and building landfills higher and wider, works against our fight to save the planet. At Nth Cycle, we see the path forward. We believe all the critical minerals needed for the energy transition are already in circulation today. We just didn't have a clean, profitable way of retrieving them, until now.

Nth Cycle is a metal processing technology company. Our electro-extraction technology helps recyclers and miners capture more critical minerals—for use in lithium-ion battery manufacturing, among other things—while dramatically reducing costs and emissions. We are the heart of metals processing; we are the crucial step that profitably separates critical minerals from other elements, transforming them into production-grade feedstocks for the energy transition.

### **OUR CULTURE.**

You won't find another team like ours. We believe in open, honest communication, and enjoying our work while changing the world. We work quickly but with intention—we've scaled our technology in size 100x in the past year. We're mission-oriented and think big—we're focused on reducing *gigatons* CO2 emissions from the atmosphere by 2050. And we value the perspectives and opinions of our colleagues while pushing each other to excel.

We're a dynamic team looking for a new team member who's also passionate about addressing climate change and advancing the clean energy industry. Consistent with our commitment to diversity & inclusion, we value colleagues with the ability to work on diverse teams and with a diverse range of people.

If this is you, keep reading....

### **WHAT WE NEED.**

**Nth Cycle is seeking a Financial Analysis Manager to be a critical member of the corporate finance team. The Financial Analysis Manager will partner closely with the project development and corporate development teams as we grow our operations and assess new opportunities for deployment of our innovative Electro-extraction technology. This role will report directly to the CFO and will be the main quantitative and financial analysis resource for the company.**

## N<sup>TH</sup> CYCLE

### WHAT YOU WILL DO.

- Build and own all project financial models (existing assets and pro-forma)
- Perform all financial analysis on current and future project opportunities and report evaluation of projects to senior members of the team.
- Own integration of projects models and financials into corporate FP&A
- Support all general FP&A efforts including budgeting, variance analysis, and scenario modeling
- Support asset management in performing variance analysis on project performance
- Support corporate development in quantitative analysis of investment opportunities
- Support business development in process improvement to attain better financial performance
- Act with the employee and vendor experience top of mind, continuously seeking feedback for inefficiencies and maintaining business relationships based on trust and respect.
- Consistently embody Nth Cycles's company values.

### QUALIFICATIONS:

Bachelor's degree in accounting preferred. MBA preferred.

- Minimum 5 years in financial analysis, investment banking, project finance, consulting, and/or corporate development
- Experience with Microsoft Office, particularly Microsoft Excel  
Ability to keep organization and demonstrate flexibility in a fast paced, startup company environment
- Ability and desire to work in a small team with autonomy of your own work
- Expertise in financial systems, including general ledger, financial statement presentation, budgeting, payroll, accounts receivable and accounts payable

### CLOSING STATEMENT.

Consistent with our commitment to diversity & inclusion, we value people with the ability to work on diverse teams and with a diverse range of people. We especially encourage members of traditionally underrepresented communities to apply, including women, people of color, LGBTQ people, veterans, and people with disabilities.

We know the right candidate might not check every box in this job description. You could also have important skills we haven't thought of. If you think you're a great candidate for this role, apply and tell us why. To apply, send us a resume and a few sentences about why you are interested in this position and what you bring to the table. We're looking forward to hearing from you.
